RE: Incorrect information printed in the Spectrum Journal Spring Edition 2020, Page 10

Dear all,

The BEAI would like to notify all relevant persons of an inaccurate news item contained in our Spectrum Journal's Spring 2020 edition. The incorrect news item, titled 'HSE awards ultrasound systems tender to MDI' is on page 10 of the printed edition, but is not present in the digital edition currently available. This news item was from an edition published in 2015 and was incorrectly included by our publishers in the Spring 2020 edition.

We wish to notify all of our readers that this information is incorrect and should be disregarded when reading the printed edition. A corrected version of the Spring edition can be found on [www.beai.ie](http://www.beai.ie). I would like to offer my apologies to MDI Medical and to all persons affected by this error. An apology and notice of correction will be included in our upcoming Summer Edition.

I wish to thank you all on behalf of the organisation for your continued contributions and readership of our prized Spectrum Journal.

Hoping you stay safe and well during these challenging times.

Yours Sincerely,

**Brian Kearney**

Chairperson, BEAI
