Online training

The physics of electrosurgery

The physics of electrosurgery

Perhaps one of the most misunderstood surgical technologies

PART 1

08. SEPTEMBER 2020, 1:00–2.30 P.M.

PART 2

09. SEPTEMBER 2020, 1:00–2.30 P.M.

This online lecture will cover typical examples of wave forms, spark recognition and regulation technologies (including thermofusion, endoCUT, APC) and discuss the most frequent misconceptions. We will also cover surgical smoke and technical aspects of smoke evacuation.

Duration: 1.5 hours + 1.5 hours = 3 hours

Free registration

Target group: Biomedical engineers

Speaker: Jens Bettin,
