

SURESTORE®

Endoscope Storage & Transportation

Medical Innovations Group are proud to introduce **SureStore®**, the Future of Endoscope Storage and Transportation.

British designed and manufactured by our experienced engineers and technical staff, **SureStore®** offers cutting edge long term "active" aseptic storage and transportation of Endoscopes (including GI and Theatre based scopes). Conditioned directly from the Endoscope Washer Disinfector (EWD) and completely negating the need for time consuming air drying, **SureStore®** validates each scope for storage of **up to 100 days!**

The unique design technology of **SureStore®** provides a 'Patient Ready' Packaged endoscope in Just 5 minutes.

SureStore® has been independently validated by the renowned Biotech Germande facility in accordance with the requirements of NFS 98-030: 2012 (prEN16442).

The System has been extensively tested with Endoscopes from Leading Manufacturers including Olympus, Pentax, Fujinon and Storz and results have shown no damaging or detrimental effect on the Endoscope.

KEY FEATURES INCLUDE:

- ✓ Storage Validation 100 Days
- ✓ IMS (Independent Monitoring System)
- ✓ Reduced Scope Wear & Tear
- ✓ Flexible Transportation
- ✓ Fully Traceable Cycle Data
- ✓ Quick & Simple
- ✓ Secure Robust Storage
- ✓ Space Saving

Space Saving

Quick & Simple

Fully Traceable

SureStore® enables scopes to be easily prepared in advance for emergency situations and also for any other out of hours, weekend/off-site endoscopy work, allowing for an amount of scopes to be made ready very quickly. The scopes can then be stored until needed, transported to various departments in the Hospital or to other clinics using the single TravelScope® case or the TranScope lockable cart.

The user friendly SureStore® conditioning unit requires no costly installation or endoscope drying facilities and is universal to any EWD. The purpose designed contoured tray and triple sealed vacuum pouch provide complete transport and storage protection for all types of endoscope.

SureStore® has the potential to significantly reduce staff time and endoscope wear and tear associated with reprocessing and transit.

TECHNICAL SPECIFICATIONS

- Process time - approximately 5 minutes from start to finish
- Dimensions
 - Height: 1220mm (960mm exc screen)
 - Width: 545mm
 - Depth: 690mm
- Installation & Operating Requirements
 - Power Requirements 13amp 220 - 240V
 - Completely mobile on 4 independently lockable castors
- Installation space - unit does not require any additional ventilation space and can therefore be positioned against a wall or between other equipment.
- Validation - Biotech Germande and NFS 98-030

ORDERING INFORMATION

| | Product Ref | NHS SC* | Product Description | Units Per Box |
|---|-------------|----------|---|---------------|
|  | 100600 | FAL13614 | SureStore® Set Includes: 1 x SureStore® Conditioning Unit 12 x SureStore® Supportive Trays 1 x 5 Litre N-Sure® Solution 50 x SureStore® Outer Pouches 45 x SureStore® Sterile Collection Pads 50 x Cleanascope® Liners | 1 |
|  | 100603 | FAL13616 | N-Sure® Solution for use with SureStore® endoscope conditioning system 5L | 4 |
|  | 100604 | FAL13617 | SureStore Outer Pouch | 100 |
|  | 100605 | FAL13629 | SureStore® Sterile Collection Pads | 225 |
|  | 100606 | FAL13620 | SureStore® Supportive Tray The SureStore® Supportive Tray has been specifically contoured for the protection of conditioned flexible endoscopes *Fully compatible with the SureStore® Conditioning System | 1 |
|  | 700344 | FAL13618 | SureStore® Tracking Labels for use with SureStore® conditioning unit | 400 |
|  | 200018 | FAL13623 | SureStore® Hepa Air Filter | 1 |
|  | 103580 | FAL12799 | CleanaScope® sterile liner set (red and green covers with base liner) | 200 |
|  | 100521 | FAL13619 | TravelScope® Transit Case - The TravelScope® transit case offers complete protection and flexibility in transporting fully conditioned flexible endoscopes within the healthcare facility and beyond | 1 |
|  | 103543 | - | TranScope Lockable Cart 6 Tray | 1 |
| | 103544 | - | TranScope Lockable Cart 6 Tray with Lids | 1 |
