

Above the Curve

Introducing V-PRO[®] 60 Low Temperature Sterilization System

Offering above-the-curve benefits for surgical flexible endoscope processing.

Above the Curve in Versatility

- Processes **dual channel** flexible surgical endoscopes and broncho scopes*
- Processing options include a **35-minute flexible Cycle**, a 59-minute Lumen Cycle and a 28-minute Non Lumen Cycle

Above the Curve in Productivity

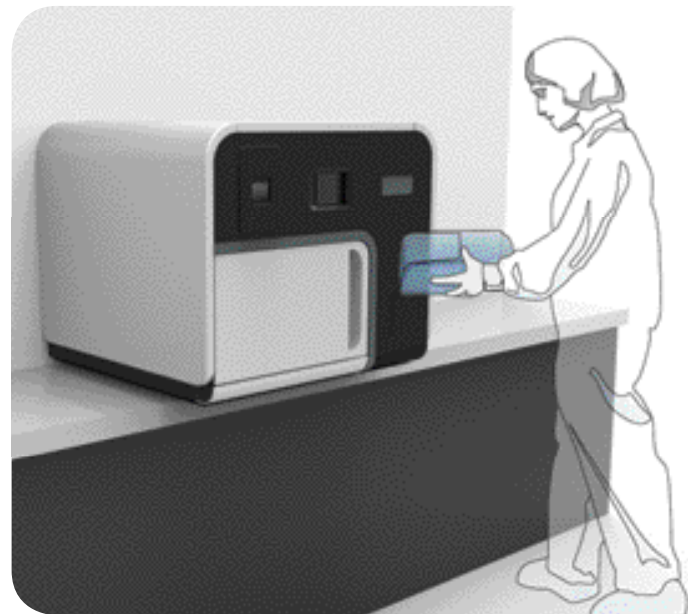

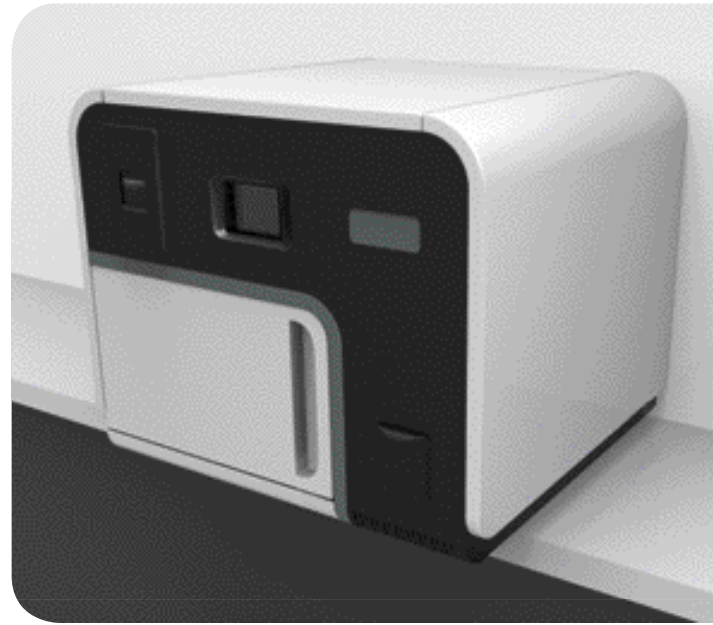

- 60 L chamber size allows users to process multiple devices per load
 - Up to 12 lumens or 1 flexible surgical endoscope
- Designed with low sensitivity to moisture to minimize aborted cycles

Above the Curve in Efficiency

- Low total cost of ownership
- Biodegradable by-products

The easy-to-use V-PRO 60 Low Temperature Sterilization System is coming soon. For more information, please contact your STERIS sales representative.

*Single or dual lumens that are $\geq 1\text{mm ID}$ x $\leq 990\text{mm length}$.
